

K-LOVE radio serves me, my family and my community by providing quality music and encouraging messages. The music and the messages are safe for everyone. In a rural community we rely on FM broadcasting because we do not have as many options as urban communities. If K-LOVE were to be displaced by an LPFM broadcaster providing other programming, the community would lose the wholesome music and messages that K-LOVE provides. The service that K-LOVE provides to the public reminds all of us that there is faith, hope and love above all else. In a time when it is difficult to find music and messages that remind us that there is faith, hope and love, it is refreshing to know that K-LOVE is available to all. Our communities need family friendly programming. Please preserve the service that K-LOVE provides and our communities value.
